Cir4Fun

Shaping a Circular Future for Furniture

Cir4Fun is a pioneering project with clear objectives aimed at transforming the furniture industry for a more sustainable and efficient future.

Achieving a Circular Future for Furniture

How?

Furniture from: Kave Home

Furniture from: Sara SA

Transparency
Implementing Digital Product Passports for clear material

Eco-Design
Utilising Augmented Reality (AR) and Robotics technologies, enriched with AI, to optimise furniture for sustainability.
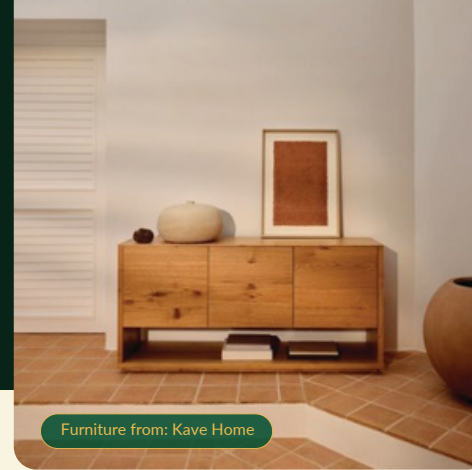

Circularity
Catalyse reuse, repair, and recycling within the industry.

Empowerment
Enable consumers to make sustainable choices.

## Making a Sustainable Future Ecosystem a Reality

By focusing on these core objectives, Cir4Fun aims to make a proper dent in environmental impact, save resources, drive sustainable innovation, and foster a more responsible furniture industry.
