# Achieving a Circular Future for Furniture

## How?

### Transparency

Implementing Digital Product Passports for clear material

### Eco-Design

Utilising Augmented Reality (AR) and Robotics technologies, enriched with AI, to optimise furniture for sustainability.

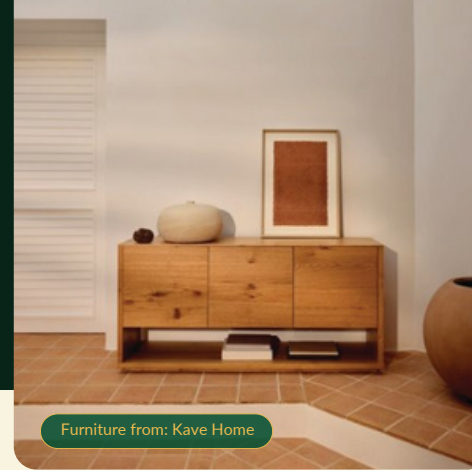

### Circularity

Catalyse reuse, repair, and recycling within the industry.

### Empowerment

Enable consumers to make sustainable choices.

## Making a Sustainable Future Ecosystem a Reality

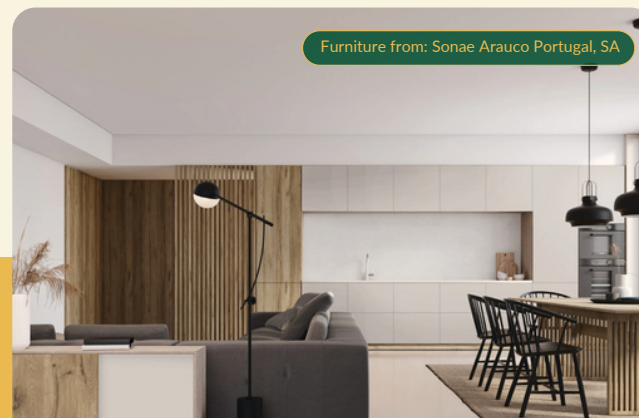

By focusing on these core objectives, Cir4Fun aims to make a proper dent in environmental impact, save resources, drive sustainable innovation, and foster a more responsible furniture industry.
